

Dry Ice Blasting Unit

ASCOJET 908K complete (fully adjustable)

part no. 917660

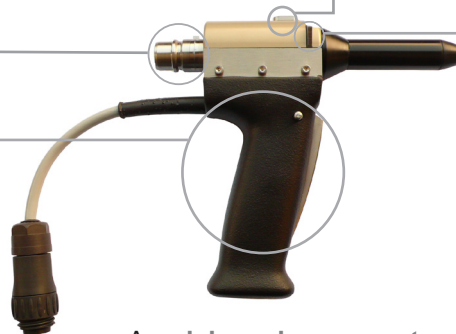

The **ASCOJET 908K** is based on the model **ASCOJET 908** but was specially developed for the plastics industry and in particular for plastic injection moulders. The handy gun is equipped with a short and specially designed plastic nozzle, which has very low air consumption and is still powerful. The plastic nozzles ensure that the moulds can be cleaned without damaging them and without removing them from the machine. The **ASCOJET 908K** and its accessories are the ideal solution for any plastic injection moulder.

Powerful and very handy blasting gun:

Thanks to a **quick connect coupling** the gun can be very easily attached to the blasting unit.

Increased security thanks to the **locking pin**, which makes a sudden opening of the locking mechanism of the nozzle impossible.

The **ergonomic gun handle ensures** very easy handling and comfortable operation when blasting over longer periods. The new developed safety button is ideal for left and right-hander.

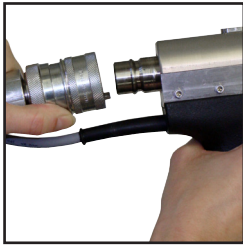

A **quick exchange system** allows nozzles to be changed within seconds without any tools.

Specifications

Material:	frame made of steel, lateral and rear housing panels made of aluminium, powdercoated
Dimensions (L x W x H) incl. wheels and folded handle:	530 x 550 x 730 mm
Weight empty:	approx. 47 kg
Content of pellet hopper:	approx. 9 kg
Blasting pressure:	0 - 7 bar (adjustable)
Dry Ice consumption:	20 - 40 kg/hr (stepless)
Power consumption:	500 W nominal
Voltage:	230 V, 50/60 Hz, 1 Ph (other voltages on request)
Connection:	Input: 3/4" BSP inside

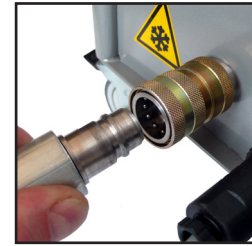

Special features of ASCOJET 908K:

Powerful and handy blasting gun with quick connect coupling

Highly manoeuvrable

Quick connect coupling at blasting hose

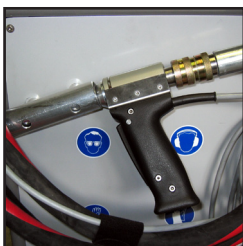

Very lightweight and compact

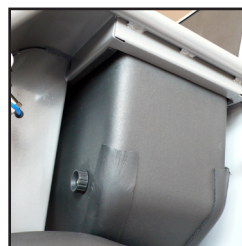

Integrated holding device for hose

Convenient fold-away handle for easy transportation

Holding device for blasting gun

Insulated pellet hopper with 9 kg capacity

Control panel for easy overview

Standardly included in the delivery of ASCOJET 908K:

Blasting gun OHS4K

Standard for the ASCOJET 908K

Length: 20 cm

Weight: 0.8 kg

Blasting pressure: 0 - 7 bar

part no. 917661

including the corresponding blasting nozzle

High performance barrel nozzle 705.09/08/K

Standard for the blasting gun OHS4K

Powerful nozzle with very low air consumption

Outlet opening: approx. Ø 8 mm

Length: 9 cm

Material: plastic

OHS

part no. 917629

Hose assembly 5 m for OHS4K gun

Standard for the ASCOJET 908K, can also be used as an extension of the hose assembly incl. control cable, grounded

OHS

part no. 917701

Options for ASCOJET 908K:

Pos. 001

Angled nozzle 705.16/08/90°K

A powerful nozzle for confined spaces with very low air consumption

Outlet opening: approx. \varnothing 8 mm
Length: 16 cm
Material: plastic

OHS

part no. 917652

Pos. 002

Barrel nozzle 707.09/10/K

Thanks to an inner diameter of only 7 mm the barrel nozzle has a very economical air consumption but is nevertheless powerful

Outlet opening: approx. \varnothing 10 mm
Length: 9 cm
Material: plastic

OHS

part no. 918280

Pos. 003

Barrel nozzle 707.15/12/K

Thanks to an inner diameter of only 7 mm the barrel nozzle has a very economical air consumption, but is nevertheless powerful

Outlet opening: approx. \varnothing 12 mm
Length: 15 cm
Material: plastic

OHS

part no. 918281

Pos. 004

Compressed air hose 7.5 m

The 7.5 m compressed air hose with a claw coupling on the equipment side and a plug in nipple on the compressed air system side makes quick provision of air possible at the job site

part no. 917640

Pos. 005

Claw coupling

For fast connection and disconnection of the air line to the blasting equipment

Thread: 3/4"

part no. 907091

Pos. 006

Protective sleeve for one hose system

To protect the control cable and blasting hose from dirt and damages

Available in metres

OHS
OHP

part no. 918250

Options for ASCOJET 908K:

Pos. 007

Protective hood for ASCOJET 908 / 908K

The newly developed hood for our blasting equipment protects the control elements from contamination. The transparent cover can be opened for easy view on and access to the operation elements. For cleaning the hood can easily be taken off

part no. 918255

Pos. 008

Blasting gun OHC with integrated cutter

Powerful one-hose blasting gun with safety quick coupling

Length: 18.5 cm

Weight: 0.55 kg

Working pressure: 0 - 10 bar

including the corresponding blasting nozzle

Barrel nozzle 807.09/09/K for OHC gun

Standard equipment to OHC gun

Outlet opening: approx. Ø 9 mm

Length: 9 cm

Material: plastic

OHC

part no. 917670

part no. 906584

Pos. 009

Angled nozzle 807.16/10/90°/K for OHC gun

Nozzle to clean in narrow spaces

Outlet opening: Ø 10 mm

Length: 16 cm

Material: plastic

OHC

part no. 917691

Pos. 009

Flat nozzle 807.14/30/K for OHC gun

Thanks to an inner diameter of only 7 mm the flat nozzle has a very economical air consumption but is nevertheless powerful. Suitable for blasting large areas

Outlet opening: approx. 30 mm x 1.6 mm

Length: 14 cm

Material: plastic

OHC

part no. 917697

Pos. 010

Spare parts kit ASCOJET 908 / 908K

Containing the most important parts to ensure quick reaction for continuous operation

part no. 917503
